Subject: Sustainable Communities Act Amendment Bill

Dear Harriet Harman

I regard the Sustainable Communities Act Amendment Bill as vital as it will ensure that the 'bottom up' process in the Sustainable Communities Act will continue so that Councils can continue to use it.

Please ensure that this Bill receives the Parliamentary time it needs in order to become law before the General Election. The Bill is particularly important to residents in my area of Amber Valley, Derbyshire which faces redevelopment of a large brown-field site which will increase the size of our local community by around 50%

Yours sincerely,

Freda Raphael  
Chairperson, BASA
